WORKSHEET -2 CLASS - V SUBJECT - ENGLISH

Q1. Read the passage carefully :-

Philosophy means 'love of wisdom' and philosophy in this sense is what men must acquire of the new powers invented by technician are handed over by them to be wielded by ordinary men and women without plunging mankind into an appealing cataclysm. But the philosophy that should be a part of general education is not the same thing as the philosophy of specialist. Not only in philosophy but in all branches of academic study there is distinction between what has culture value and what is only professional interest. Historians may debate upon what happened to Sennacherib's successful expedition three years later. Academic education should aim at giving a comprehensive if not the specialised study which increase of knowledge has made unavoidable.
